

8 May, 2020

To: Mayo Clinic Institutional Review Board

From: Data Safety Monitoring Board for the study “Expanded Access to Convalescent Plasma for the Treatment of Patients with COVID-19”

The following is a minute from the May 8, 2020 meeting of the Data Safety Monitoring Board for the abovementioned study:

*The DSMB unanimously recommended that the study can continue.*

*The DSMB unanimously approved a motion that a publication regarding safety can be prepared by the investigator, and needs to be approved by the DSMB and shared with both FDA and BARDA prior to submission.*

Respectfully submitted,

David O. Warner, M.D. – Secretary

Cc: Allan Jaffe, M.D. - Chair
